## Success Stories

### Sarbanes-Oxley

A billion-dollar biotech company was faced with meeting complex and ambiguous requirements of the Sarbanes-Oxley Regulatory Act. M<sup>2</sup> provided a team of consultants who helped interpret the act and build a compliant organization. The team injected value and expertise where it was needed, leaving the company with a completely retooled, reorganized reporting system. Additionally, M<sup>2</sup> provided critical knowledge and skills transfer to help the company become self-sufficient going forward.

### Risk Management & Regulatory Compliance

When a large bank was cited by Federal Regulators for failure to comply with BSA/AML policy, they enlisted the expertise of M<sup>2</sup> to provide a team solution. M<sup>2</sup> created and implemented a bank-wide workflow process to remediate customer account files. The success of the bank's investment in M<sup>2</sup> has been proven by the bank meeting the Federal requirements and implementing the new operating processes throughout its 400 branch network.
